Independent Review Attestation - Synthetic Test File

This fictional attestation refers to **Mangrove Restoration - Bekasi Coastal Area** (Project ID: project_001). It confirms only that the attached synthetic evidence package was reviewed for internal consistency during a software demonstration.

The reviewer observed that the project claim, GPS metadata, monitoring CSV, and survival-rate report use consistent project identifiers and broadly consistent numeric values. This attestation does not verify carbon additionality, permanence, leakage, baseline methodology, ownership, regulatory compliance, or eligibility for issuance of any carbon credit.
